

FEDERICO S. CONCI

 Córdoba, Argentina  +54 9 351 153095306  concifederico@gmail.com  linkedin.com/in/federico-conci-a240ab9a

PROFESSIONAL PROFILE

Chemical Engineer specialized in Quality, with solid experience in operations management, maintenance, and projects in mass consumer goods, oil & gas industries. Expert in the complete cycle of high-speed machinery, optimization, and agile methodologies applied to continuous improvement. I seek to apply my comprehensive knowledge of manufacturing processes, rapid prototyping, and automation at multiple levels to lead New Product Development, ensuring its technical feasibility, industrial scalability, and excellence in quality.

RELEVANT PROFESSIONAL EXPERIENCE

Packaging Mechanical Maintenance and Improvements Section Head

Bagley Argentina SA

April 2022 - Present

- Leadership of the complete maintenance cycle of high-speed machinery for cookie production lines, managing a team of 16 technicians.
- Management of a central workshop specializing in machining and welding operations, in parallel with developing multiple suppliers.
- Execution of early equipment management and leadership in 3 complete end-of-line equipment upgrade operations.
- Reference for the plant improvement pillar (focused improvement groups), implementing rapid prototyping and 3D printing through agile methodologies.
- Development of equipment programming algorithms and automations at technical and management software levels.

Production Section Head / Process Engineer (Interim)

Bagley Argentina SA

July 2015 - April 2022

- Coordination of resources and activities for 5 production lines with more than 100 people in charge.
- Early management of line assembly projects and optimization of production processes.

Senior Field Engineer / Technical Support and Sales

Halliburton & Schlumberger Argentina SA

May 2007 - July 2015

- Technical and economic feasibility studies for the implementation of new technologies in Oil & Gas.
- Internal IMS/ISO/HSE/5S audits and non-conformance management.

EDUCATION

- Specialization in Quality Engineering - Universidad Tecnológica Nacional, FRC (2015 - 2016)
- Chemical Engineer (GPA: 8.97) - Universidad Nacional de Córdoba (2002 - 2007)
- Frontend Web Development (Next.js) - Self-taught / Argentina Programa (2021 - Present)

PROJECTS AND TECHNICAL SKILLS

- | | |
|--|--|
| • Engineering & Manufacturing: 3D Prototyping, Parametric CAD Design, CFD Numerical Simulations. | • Software Development: Next.js, Python, OpenCV (Computer Vision), Linux. |
| • Automation: Microcontrollers, Digital Electronics, Instrumentation, Packaging Electronics. | • Management & Methodologies: Agile Methodologies, Early Project Management, Lean Manufacturing. |

NOTABLE DISTINCTIONS

 SGI Bagley Recognition (2017, 2018, 2019, 2023, 2024, 2025)  Distinguished Graduate UNC (2013)

 Pre-Engineering Award (Academia Nacional de Ingeniería)
